

Make your avatar shield to get the Games Use Different Skills achievement

When you play games, you use different skills to complete tasks and achieve your objective. Some of the skills used in games are: **mental**, **physical**, and **social**.

- **Mental** skills allow you to think carefully and plan
- **Physical** skills allow you to move your body in safe ways
- **Social** skills allow you to work with other people in positive ways

Below are four different challenges you might face while gaming. To create your shield, fill in each of the four boxes with how you would use your mental, physical, and/or social skills. Take your time to complete each section of the shield, using drawings, words, or a combination of both to represent your ideas. You can use more than one type of skill for each challenge.

When you have completed the front of your shield, glue or tape a strip of paper to the back for a handle.

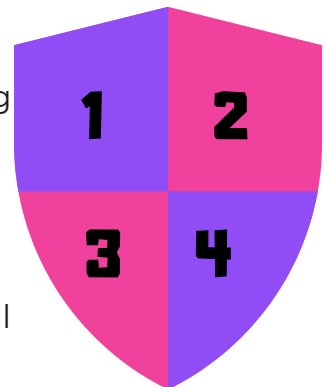

Avatar Shield Instructions

Challenge 1 (upper left corner): You encounter a confusing puzzle in a game and can't move forward until you complete it.

Challenge 2 (upper right corner): You've been playing a game for a while and your back feels stiff and achy.

Challenge 3 (lower left corner): While playing an online game, you come across another player who starts sending mean and hurtful messages to you and your teammates.

Challenge 4 (lower right corner): You receive a friend request from someone you don't know while playing an online game. They seem friendly but keep asking personal questions.
